

Illustrated Crown Cycles of the Twenty Laurel Kingdoms

Each kingdom of the SCA has its own yearly cycle, with coronations at the start of each royal reign, and crown tournaments to select successors. Most kingdoms have two reigns per year (three in the West), shown here as distinct colors, with gold for summer/spring, blue for winter/fall. Each cycle starts with a crown tourney  and term as heirs , followed by a coronation  and reign , ending at the next coronation. A range of weekends is shown as a wide box ; fallback weeks appear in dotted lines . Some events may shift due to floating holidays.
